

## **COVID PROACTIVE SHIELD**

First of all, we would like to inform our guests that Milos Island has no case of covid-19 and we are trying very hard to keep it that way. Also, all our accommodations are autonomous and private, with the exclusive use by our guests.

Having collected all the data from our government and the competent bodies regarding the precaution from COVID-19, we created with our scientific collaborators a complete solution, the **CPS (COVID PROACTIVE SHIELD)** program.

The goal of the program is to ensure the health of guests and employees, as well as the protection of the accommodation who managed by our company.

This program implements specific prevention measures in order to avoid the spread of Covid-19 virus in our accommodation, antiseptic preparation for guests, total cleaning of accommodations based to covid-19 and a specific protocol for our partners who is in contact with guests and accommodations.

<b>CPS</b>	
<b>Disinfection - microbicial by spraying using a special preparation approved by the «ΕΟΦ» (National Organization for Medicines)</b>	<b>Before every check in</b>
<b>Cleaning all areas with certified disinfectants</b>	<b>Every 3 days</b>
<b>Disinfection of key touch points with a special disinfectant against COVID-19</b>	<b>Every 3 days</b>
<b>Chemical cleaning of air conditioners</b>	<b>Every 30 days</b>
<b>Mandatory use of personal protective equipment (gloves, masks, hand gel antiseptics) by our partner who comes in contact with the guests or in any of his presence in our accommodation</b>	<b>Every time</b>
<b>Pool chlorination and special cleaning by a certified company</b>	<b>Every 3 days (daily check)</b>
<b>Provision of antiseptic gels to guests, free of charge</b>	<b>In every check in</b>

# Coronavirus:

## Don't fear - Protect yourself

### *Knowledge is your shield*

**Wash your hands frequently and thoroughly** using soap or alcohol-based hand sanitizer. Avoid touching your nose, mouth and eyes.

**Cover your mouth and nose** with a tissue or in a bent elbow when you cough or sneeze. Immediately wash your hands.

**Throw used tissues** in a closed lined trash can.

**Avoid close contacts** if you are sick (cough, fever, runny nose, sore throat) or with people exhibiting these symptoms, especially the elderly or chronically ill.
